

Department of Computer and Information Science

Faculty Research Interests by Name

<u>Faculty Member</u>	<u>Research Interests</u>
Akingbehin, Kiumi	Intelligent systems, real-time computing, wireless vehicle networks
Elenbogen, Bruce	Theory of computation
Grosky, William	Multimedia databases, managing image data
Guo, Jinhua	Distributed systems, vehicle networks
Kampfner, Roberto	Information systems and intelligent systems
Maxim, Bruce	Software engineering
Medjahed, Brahim	Databases, semantic web, internet computing, workflows
Patel, Nilesh	Digital imaging, vehicle communications and networking, infotainment
Seliya, Naeem	Software engineering, data mining, machine learning, application and data security, computational intelligence
Shen, Jie	Computational geometry and graphics, morphing
Tsui, Louis	Operating systems
Yoon, David	Computer graphics, CMC programming
Zhu, Qiang	Database query optimization
